WHO WE ARE

Building Iraq since 2004

Sahl Al-Riyam Trading & General Contracting Co. Ltd. is an Iraqi limited liability company founded in Mosul in 2004. For more than twenty years, we have delivered public and private contracts in civil and building works, electrical and mechanical works, roads and infrastructure, and general trading.

Our clients include ministries, provincial government bodies and international organisations. We execute, supervise and design projects, and we supply materials and equipment of the type and origin that each client specifies.

We combine modern technical and administrative management with the expertise of local and international designers, so that every project meets Iraqi and international engineering standards.

WHAT DRIVES US

Vision, Mission & Values

OUR VISION

To be a trusted Iraqi partner in rebuilding the country's infrastructure, recognised for quality, reliability and on-time delivery.

OUR MISSION

To deliver construction, electrical, mechanical and supply projects on time and to specification, through qualified people, approved materials and modern management.

Our Values

Quality

We build strictly to each project's technical specifications, with no compromise on materials or workmanship.

Commitment to Schedule

We mobilise engineers, skilled labour and machinery to meet each client's timetable.

Integrity

We work transparently with our clients and partners, honouring every contractual commitment.

Investing in People

We develop our staff through technical and engineering training, both inside and outside Iraq.

WHAT WE DO

Our Services

01

Civil & Building Works

Construction of public and private buildings, including schools, administrative and sports facilities, together with rehabilitation and renovation of existing structures.

02

Roads & Infrastructure

Roads with concrete and asphalt paving, sewer lines and drainage networks.

03

Electrical Works

Substations, transmission lines and towers, and electrical installations for public and private facilities.

04

Mechanical Works

Mechanical installations and the supply and installation of equipment, including hydraulic equipment for power stations.

05

General Trading

Procurement and supply of construction materials and equipment from recognised international brands, in the type and origin specified by the client.

HOW WE DELIVER

- Execution
- Supervision
